Independence and ethical issues for government lawyers

In an increasingly litigious society in which the decisions of government entities are regularly challenged, many organisations are falling back on legal teams and officers for confirmation and comfort regarding their operations, a situation only exacerbated by COVID. Recent decisions both in Australia and overseas reveal that this trend can compromise independence and raise issues around governance, privilege and the use of experts. This session will examine these trends and provide strategies to preserve independence and maintain the integrity of the solicitor – client relationship.

Presenter: **Shane Budden**, Special Counsel, Ethics, Queensland Law Society

Chair: **Paula Freeleagus**, Assistant Crown Solicitor, Crown Law, Commercial Dispute Resolution Team and Member, Queensland Law Society Government Lawyers Committee
